Education ecosystem data collection, analysis and insights complete with extensive resources library, webinars and workshops.</p>
ProLearning	radii.org	<p>ProLearning provides the leading analytics platform for K-12 schools. ProLearning has been developed by RADII P/L over four years in collaboration with schools across Australia. As a next generation analytics platform, ProLearning uses AI and related smart technologies to provide schools with access to evidence from the analysis of their data — these technologies manage all aspects of the management of data, analysis of data, and the interpretation of data analyses to present evidence in the everyday language of teaching and learning. Zero training is required to use ProLearning, and no knowledge of data analysis or statistics is required, as the system uses automated systems to analyse and interpret data in response to a question asked by any member of staff. The philosophy behind ProLearning is "Just ask any question that can be answered from an analysis of the data harvested from all available sources, and you will receive an answer in the language used in everyday schooling."</p>	K-12 schools and School Systems in NZ, North America, EU, UK.	K-12 School Education	* Learning Analytics	<ol style="list-style-type: none"> 1. Provide real-time COVID-19 Learning Online Feedback 2. Diagnose the likely causes of the difficulties individual students have with their current learning. 3. Identify students 'at-risk' of not meeting their potential 4. Undertake prognostic analyses to evaluate the potential outcomes from a student taking alternative pathways 5. Automated data analyses & interpretation pushed to teachers in real-time
QuitCh	quitich.com	<p>QuitCh is a content neutral gamified mobile platform. It can be used across any discipline and is currently used in Science, Accounting, Engineering, Plumbing, and Nursing. It is used in schools, the Vocational Educator Sector and Higher Education Institutions.</p> <p>The QuitCh Approach is to:</p> <ul style="list-style-type: none"> • Break down new learning material into bite-sized chunks • Revise regularly through short bursts of rapid-fire gaming • Gradually increase the interval between revision sessions, committing the information to your long-term memory through the practice of active recall <p>Our handy 'set-and-forget' scheduling and announcement tools allow you to send notifications when new content gets released, as well as reminders to revisit topics whenever it's required.</p> <p>Our reporting tools enable teachers to see in real-time which topics students are struggling with, as well as identifying the students that are most at risk.</p> <p>The facts</p> <p>An initial study into QuitCh's success found that:</p> <ul style="list-style-type: none"> • students who used the app performed 7% better overall, and • the implementation of QuitCh in a class was associated with a 12% higher student retention rate than a class without QuitCh. <p>Students respond well to QuitCh because they're easily able to test their knowledge level without fear of failure. QuitCh helps consolidate and reinforce key concepts.</p>		<ul style="list-style-type: none"> *High School - Grade 7-12 * Higher Education * Vocational Education & Skills * Corporate L&D 	<ul style="list-style-type: none"> Learning Management Systems * Student Management Systems * Educational Content 	<ol style="list-style-type: none"> 1. ReadCloud	www.readcloud.com	<p>ReadCloud (RCL) listed on the ASX in February 2018. It's proprietary eReading software is successfully used in over 350 leading schools across Australia and by more than 100,000 students. Having acquired AIET (nationally accredited RTO) RCL has VET capability. RCL offers schools access to their in-classroom content from the worlds leading publishers (eBooks and publisher interactive resources) in one app. RCL's innovative eReader enables teachers and students to share notes, drawings, questions, videos, audio and websites directly inside the eBook, turning the text into a place for discussion, collaboration and social learning. Teachers are able to remotely curate and upload their own content into the application. Imbedded within the application are a range of reading analytics. These tools help supplement student learning outcomes. Access the RCL software from its native app's, a web browser, LMS or OneNote. The platform also works with resources purchased from other booksellers.</p>	South East Asia USA New Zealand Europe (certain markets)	7-12 Schools	* Educational Content (eLearning/eReading Platform)	<ul style="list-style-type: none"> - Access your in-classroom resources in one single, cross-platform native app - Access both eBooks and Publisher Interactive Resources inside the platform - Turn the eBook into a place of/for discussion and social eLearning through annotating and collaborating with your fellow class mates - Teacher are able to curate their own content to further contextualise student learning outcomes - In addition to the native apps access ReadCloud in your browser, your LMS, Office 365, Google and OneNote
Schoolbox	www.schoolbox.com.au	<p>Schoolbox is the only platform to house a market leading LMS, powerful communications platform and intranet in one dynamic platform. The design of the platform and Schoolbox's commitment to creating deep integrations, enables all other EdTech tools to be housed within the platform, bringing 'everything into one place' for all users within the school community. This design also assists School in reducing the amount of tools they need to subscribe to and manage.</p> <p>Schoolbox's success is because of it's customers, who largely influence the continual development of the platform. They are also our strongest marketing arm, with word of mouth still the strongest business generator.</p> <p>Australia and NZ are the foundation of the business, with international school markets throughout Asia and MENA promising the largest growth potential.</p>	Asia MENA Europe Americas	K-12	Learning Management System	<ol style="list-style-type: none"> 1: Schoolbox is a powerful and dynamic Learning Management System, Communication and Community engagement platform and Intranet all in one system. 2: The Schoolbox platform becomes the single point of entry for all users of the system, Staff, Students and Parents. Through single sign on capability, all other EdTech tools are surfaced within Schoolbox bringing 'everything into one place'. 3: The Schoolbox platform integrates with 15 of the most popular Student Management Systems, enabling a seamless flow of data. 4: Schoolbox enables each School to brand it in any way they see fit. The platform name, branding and color pallet are all changeable. 5: The dynamic nature of Schoolbox enables a large number of workflows and curricula to be mapped, making it an extremely flexible platform for all pedagogical approaches.
