

Trading at Incheon, now made effortless

Flexible storage space, stuffing/de-stuffing options and faster connections from Incheon – only with our new Inland Container Depot.

The heart of your business in South Korea rests in Incheon and the greater Seoul region. However, getting your cargo in and out of the region can, at times, be challenging work. Congestions at the ports can lead to a storage space crunch at the docks, and cross border business requires paperwork, processes and compliance. If all the steps don't fall in place, you could be looking at import or export delays.

That's why we are making entry and exit into Incheon more accessible to your business – introducing our new Inland Container Depot (ICD) in Incheon.

What's new about our ICD?

Brand new depot with all the logistics capabilities

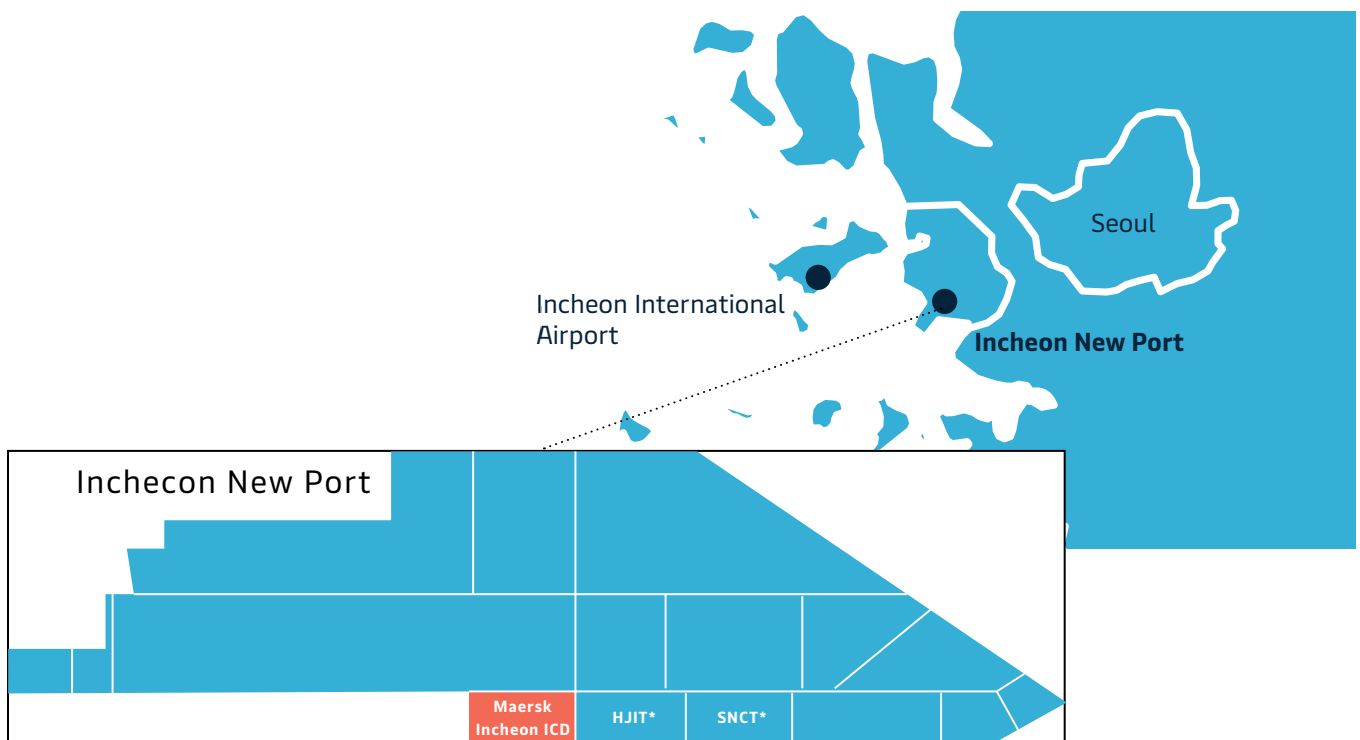

Located centrally in the Incheon Port area

Specially crafted with an import/export focus

Located conveniently for faster connections

Our ground map from Incheon shows how our ICD is ideally place move your goods faster in and out of the region.

* HJIT: Hanjin Incheon Container Terminal
 SNCT: Sun Kwang Newport Container Terminal

Making international trade easier for you

The Incheon ICD has been launched to offer convenient and diverse integrated logistics services to customers who export and import from/to Incheon and, by extension, to Seoul.

The ICD offers:

A one-stop-solution

No more dealing with multiple parties. Our solution combines your Inland & Ocean transportation, customs, storage and other value-added services under one logistics provider.

Tailor-made services

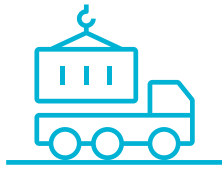

No matter your business, our teams can customise our service offerings to fit your import or export journeys. You pick the plan, and we'll get it done.

Transparent price policy

We offer competitive prices upfront on all our services. Rest assured that we charge only based on the services you utilise.

Some of our key services at Incheon include:

Seamless transfers from
Ocean to Inland

Customs House Brokerage
service

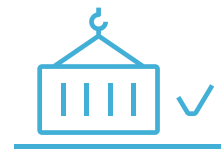

Inland transportation
connecting point to point

Car and bulk cargo stuffing/
de-stuffing

Container and cargo storage
in case of congestions

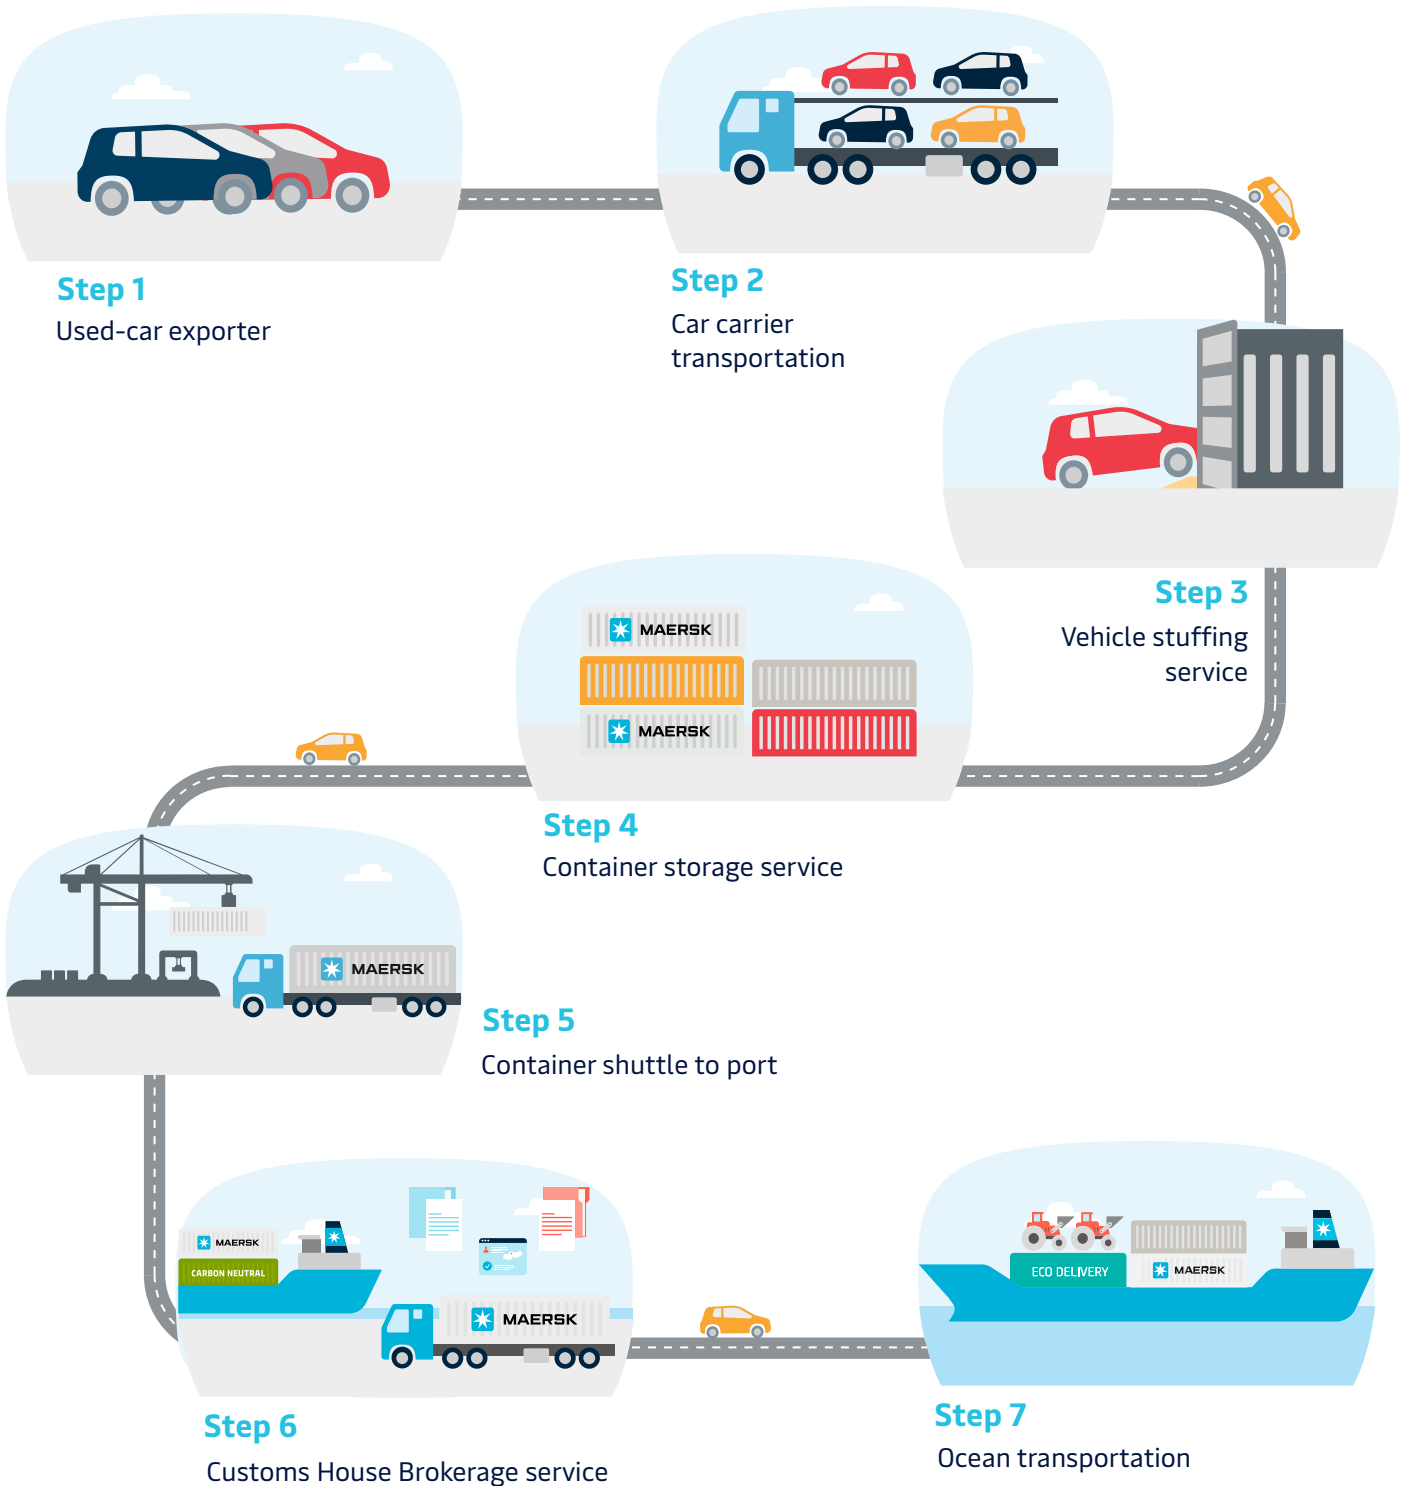

Container lift on/off service

Simplify your export journey with our Incheon ICD

As a car exporter, your export journey differs from an import one at many stages. Much like the vehicles you deal in, a 'one-size-fits-all' approach might not cut it. We understand that. That's why we have customised our service offerings at the ICD to suit your products and your business needs.

Please take a look below to see how we've refined your cargo journey into a well-oiled running machine.

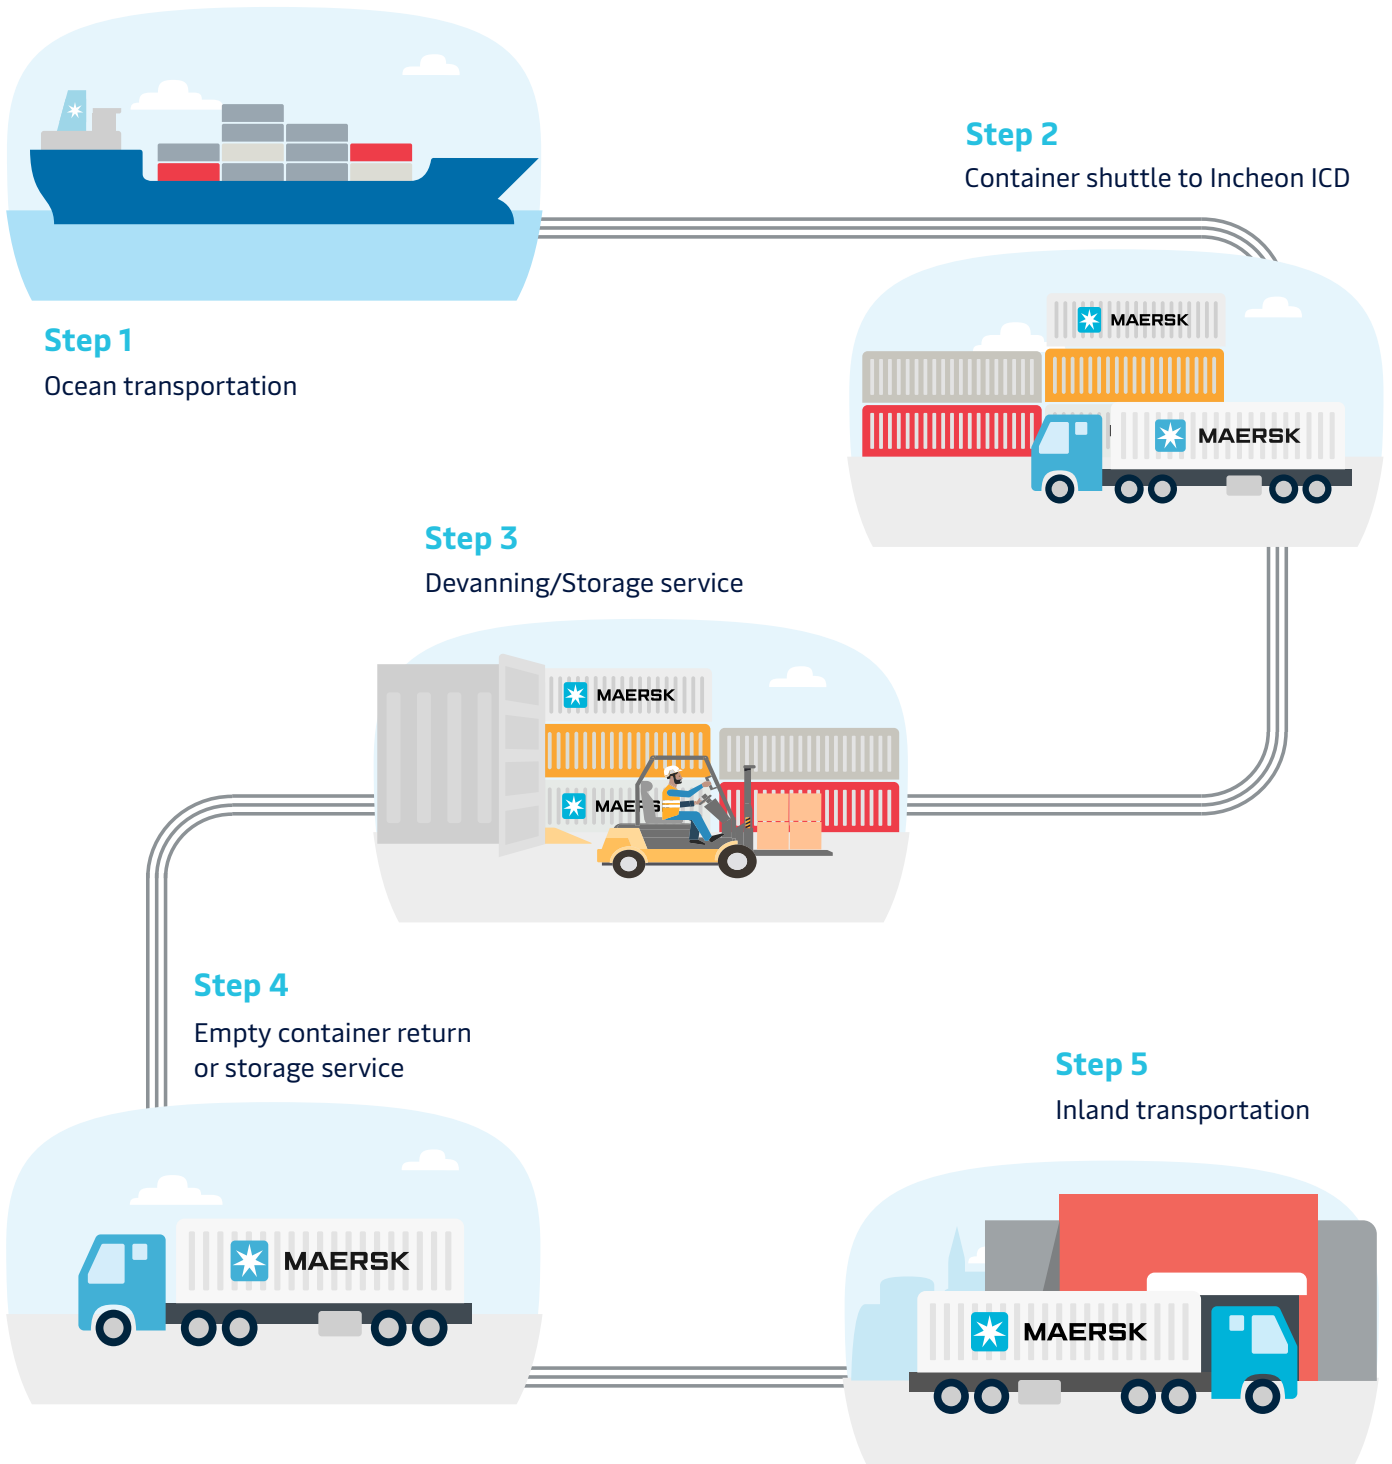

Please note: Our services are carrier-neutral. We can transport goods contracted with other logistics providers on behalf of our customers.

A faster, better way to import via Incheon

If you import heavy cargo into Incheon, speeding shipments through customs and reaching markets in Seoul are a priority. However, customs paperwork and intermodal transfers can be time-consuming, especially if there are many parties involved.

Being a global company, our local teams at the Incheon ICD can help simplify the entire journey. Here's how we do exactly that.

Please note: Our services are carrier-neutral. We can transport goods contracted with other logistics providers on behalf of our customers.

Get started with Maersk and save time and money on your import or export journeys.

If you have any inquiries, please feel free to contact to your sales or customer service team.
